## A Survey on International Affairs

Please answer to the following questions after reading the scenario below.

China and Japan have conflicting claims over certain land and sea territories. They also dispute sovereignty over airspace, leading to an increasing number of cases where fighter-jets of the countries fly simultaneously in the disputed airspace. As a result, a “near-miss” incident recently occurred where their fighter-jets approached very close to each other.

Following the incident, the government of each country publicized the following announcements:

China: \$Achina

Japan: \$Ajapan

Q9

How do you feel about the then Prime Minister Tomi-ichi Murayama's following statement in 1995, given at the 50th anniversary of the end of World War II?

"During a certain period in the not too distant past, Japan, following a mistaken national policy, advanced along the road to war, only to ensnare the Japanese people in a fateful crisis, and, through its colonial rule and aggression, caused tremendous damage and suffering to the people of many countries, particularly to those of Asian nations. In the hope that no such mistake be made in the future, I regard, in a spirit of humility, these irrefutable facts of history, and express here once again my feelings of deep remorse and state my heartfelt apology. Allow me also to express my feelings of profound mourning for all victims, both at home and abroad, of that history."
